CNC Boring Heads parameters		Motor parameters	
Revolving speed	3200rpm	Motor power	2.3HP 1.7KW
Stroke	65mm	Motor voltage	220/380V
Air pressure	0.65-0.8MPa	Motor rated frequency	50/60Hz
Tool interface	∅10	Motor rated speed	2800/3400rpm
Lubrication grease	Changcheng 7018 high-speed grease		

Note: Please connect the motor for forward rotation but not reverse rotation. The shaft with scribed line is reverse rotation, and the shaft without scribed line is forward rotation. Please install the drill correctly.
